I want I want! :D

That would make this module perfect

And also helps joomla beeing more popular :)

I agree. It would be REALLY nice for the calendar to be able to reload itself without reloading the whole page. Pleeese consider this feature super important! Thanks!! :)

Yes...Please...this is the only thing keeping my manager from approving that this module be added/included on our site.

Thanks for the consideratino.

Please appreciate that I do this in my spare time (what little of it I have). I'd love to have the time to play with Ajax and convert this over along with all the other things I'd like to do, BUT - at the moment I just don't have the time.

Regards  
Toni
