

How to show registered users in frontpage?

Posted by spetsk - 2008/10/14 14:18

Hi!

Is it possible, or maybe it's a request for new version feature:

I want to show at every event, how many people have registered for a certain event. I need to show the number only, not names.

Thanks in advance!
Great component and module :)

It's not something I've been asked about before, but I'll look at this when I'm working on the next version.

Regards
Toni

Thanks Toni. You know, sometimes you just don't want to see the usernames who have been registered ;)
